

BANO Transparency Act Declaration 2024

BANO Transparency Act Declaration

Duty to carry out due diligence in accordance with the Norwegian Transparency Act.

About BANO

BANO is a developer and supplier of bathroom solutions that helps people with reduced functional abilities to achieve optimal movement within this space.

BANO concept consist of the following pillars and solutions:

- Functionality and flexibility at all bathroom areas.
- Increase quality of life: Improved functionality in the bathroom gives senior citizens a higher degree of security and independence.
- Improved working environment: reducing strain on the caregiver.
- Height adjustable toilets and washbasins can be height adapted to all user's needs.
- Bano grab bar support: strategically designed to "intuitive grab on" in case of body unbalance or lack of vision.

BANO has manufacturing operations located in Norway and Sales and Support organizations in West Europe.

A stable and reliable supply chain contributes to our long-term success.

Company approach and principles

BANO acknowledges the responsibility to respect human rights and decent working conditions. These principles are embedded in the document Bano Group code of Ethics and Business conduct. Suppliers and business partners are encouraged to comply with these standards.

Codes and policies

BANO Group Code of Ethics and Business conduct is the framework that defines the basic principles and policies are in force to monitor compliance with these policies.

Risk assessment summary

BANO conducts due diligence assessment as required by the Norwegian law LOV-2021-06-18-99 Transparency Act. The main risks are to be in supply of products and services.

Risk Categories i Supply chain are identified as per below table covering the products and services.

Risk categories Supply Chain

Risk Criteria based on region Region		
Region	Risk Profile	Notes
Sanctioned	High	Source: https://sanctionsmap.eu
	High	Source: https://worldpopulationreview.com/country-rankings/freedom-index-by-country
Outside Europe European Economic Area	Moderate	Source: https://www.oecd.org/trade/topics/export-credits/arrangement-and-sector-understandings/financing-terms-and-conditions/country-risk-classification/
Europe/European Economic Area	Minor	
Nordic Region	Minor	
Norway	Negligible	

With the current supply chain and the products or services purchased the highest risk exposure is moderate, because the majority of the suppliers are based in the Nordic region. No raw materials are purchased by BANO AS and Products and Services are purchased from suppliers with a proven track record and known history.

BANO Transparency Act Declaration 2024

Some suppliers produce components based on Bano AS's specifications, but the majority of BANO AS's suppliers deliver components/ products from their standard product ranges. For services

purchased by Bano, the scope of these services is always very specialized and purchased from Norwegian or West European companies. The highest risk level is considered as Negligible.

In the due diligence process, all Moderate risk profile categorized suppliers will be prioritized and will be asked to confirm compliance with Bano Code of Ethics and Business Conduct. 100% of these categories confirmed compliance in writing.

Assessment of the other categories will be conducted continuously. Such assessment can either consist of reviewing suppliers published compliance documents or alternatively request compliance in writing.

More information

Upon written request, everyone has the right to information from BANO how BANO addresses actual and potential adverse impacts pursuant.

Please send request to: Email: compliance@bano.no

This summarized due-diligence report shall be updated and published no later than 30 June of each year and otherwise in case of significant changes to the enterprise's risk assessments.
